

Dear Friends,

Greetings of the day!!

[Institute of Management Studies](#), Noida has created a niche for itself in organizing its academic endeavour in such a way that the creativity, talent and capabilities of all engaged in education and industry are developed. The institute provides an intellectually and professionally stimulating environment for research scholars to share their views and research work through the *Biannual Research Journal, IMS Manthan* (**ISSN 0974-7141**, commenced publishing in 2006).

The overwhelming response to IMS-Manthan has shown us a path to launch the specialized sections of *IMS-Manthan in Computer Science & Technology, Management and Journalism*. The seventh edition of the same in the *new format* will be on the desks by **15th July 2012**. *IMS Manthan* aims to provide an interactive and dynamic forum for professionals, researchers and academicians for knowledge sharing and dissemination especially innovations and strategies as applied to computer and communications technologies.

IMS Manthan accepts an unpublished paper or extended and enhanced versions of papers presented at conferences may be submitted for possible publication. Papers from applied research and development work with direct relevance to industries and case studies, critical overviews, short papers on the on-going research and development activities in the field of Computer Science and Technology.

Contributions to *IMS Manthan* are welcomed from throughout the world and manuscripts may be submitted directly to the Editor-in-Chief.

Send your paper to:

Computer Science & Technology: editor@imsmanthan.com or editor.imsmanthan@gmail.com

Management and Journalism: editor@imsmanthan.com or editor.imsmanthan@gmail.com
